

L'origine d'un monde

Zuka

From 28 May 2023 to 31 July 2023

Press Release

This exhibition will feature oils, canvases and collages by Zuka (1924-2016), in particular the historical series on American independence, California Indians in the age of the conquistadors and the French Revolution.

For Linda Nochlin: "Zuka's work is modern in the strongest sense of the word. If these powerful papiers collés bring anything to mind, it's the more adventurous work of Miro or some of Matisse's most energetic surfaces."
